

Your route to certification against

ISO/IEC 27001:2022

Typically 4 to 6 months for organisations of 50 to 500 people.

RedSecLabs builds your information security management system with you, from gap analysis to internal audit, then supports you through the Stage 1 and Stage 2 audits by your certification body.

From kick-off to recertification

Certificates are issued by a UKAS-accredited certification body

Kick-off	Certificate	Year 1	Year 2	Year 3
4 to 6 months	Gap analysis, build and internal audit, then Stage 1 and Stage 2			
	Certificate valid for three years, with surveillance audits in years 1 and 2 and recertification in year 3			

ISO/IEC 27001:2022 at a glance

93 Annex A controls

Four themes

■ Organisational, 37

■ People, 8

□ Physical, 14

■ Technological, 34

Management system clauses

Clauses 4 to 10 set the requirements for the management system.

93 controls in four themes

The controls are grouped as organisational, people, physical and technological. Your Statement of Applicability lists which apply.

Certification is a two-stage audit

An independent, UKAS-accredited certification body carries out Stage 1 and Stage 2. We prepare you and liaise with the body you choose.

The certificate runs for three years

Surveillance audits follow in years one and two, with a recertification audit in year three.
